NOW THE STARZ ORIGINAL SERIES OUTLANDER In this rich, vibrant tale, Diana Gabaldon continues the story of Claire Randall and Jamie Fraser that began with the now-classic novel *Outlander* and continued in *Dragonfly in Amber*. Sweeping us from the battlefields of eighteenth-century Scotland to the exotic West Indies, Diana Gabaldon weaves magic once again in an exhilarating and utterly unforgettable novel. *VOYAGER* Their passionate encounter happened long ago by whatever measurement Claire Randall took. Two decades before, she had traveled back in time and into the arms of a gallant eighteenth-century Scot named Jamie Fraser. Then she returned to her own century to bear his child, believing him dead in the tragic battle of Culloden. Yet his memory has never lessened its hold on her . . . and her body still cries out for him in her dreams. Then Claire discovers that Jamie survived. Torn between returning to him and staying with their daughter in her own era, Claire must choose her destiny. And as time and space come full circle, she must find the courage to face the passion and the pain awaiting her . . . the deadly intrigues raging in a divided Scotland . . . and the daring voyage into the dark unknown that can reunite—or forever doom—her timeless love. Praise for *Voyager* “*Voyager* is, frankly, an amazing read. An unusual mix of romance, suspense and history. . . . If you can put this huge tome down before dawn, you’re made of sterner stuff than I am.”—*Arizona Tribune* “Rousing . . . audacious . . . exciting . . . Gabaldon masterfully weaves . . . flashbacks . . . crossing time periods with abandon but never losing track of the story.”—*Locus* “Unconventional . . . memorable storytelling.”—*The Seattle Times* BONUS: This edition contains an excerpt from Diana Gabaldon’s *Drums of Autumn*.

Customer Reviews Most helpful customer reviews 73 of 75 people found the following review helpful. This series is exceptional By Heather / Obsessed With Myshef Sweet christ. I cursed more in this book than I have in any of the others, but this is also my favorite of the series so far. I don't know why I get so angry with the characters when I KNOW that I'm just going to let them crawl back into my heart and do it all over again. I mean for f@#k's sake. JAMIE. Remember in the last book when I was so pissed at Claire I couldn't see straight? Oh. Well, now it's Jamie's turn. Until approximately 27% into this book I was really angry. AND THEN. The perfect scene happened. And it was like the rain fell lightly overnight, cooling the heat that was smothering me and I could finally breathe again. I spontaneously orgasmed. My heart burst from my chest. And all was right with the world. We know from the blurb that Claire goes back in time to find Jamie now that she knows he's alive - but twenty years have passed. TWENTY YEARS. Anything could have happened in those twenty years, and gahhhh, so much does. Can Claire accept the Jamie that he is now as opposed to the one that she remembers so long ago? It's clear from the immediate reunion that they both burn for each other. The hot kisses and the firm grip of their love is undeniable to anyone who sees them. But as the truth unravels - as the secrets Jamie keeps start to spill out - can Claire forgive him? CAN I FORGIVE HIM? There is a ton of angst, kidnapping, arson, prison, murder, glorious sex, shipwrecks, and even the return of a character that I never thought I'd see again. At one point I skipped through my kitchen and squealed while my husband gave me side eye and shook his head. At another point I had silent tears streaming down my face as a piece of my heart broke off. This series is exceptional. Yes, it's effing long. Yes, Diana knows it. She actually makes fun of herself a little bit about the length of her books in this one and I found that refreshing. In all reality, this book is like 4 in one. There's a lot packed into these pages that will keep you up at night and have you thinking about it during the day. I dreamed about this book, twining it into my sleep as well as my days. This book, like the others, is written extremely well. The attention to detail is outstanding and Diana knows just how far she can push you before you need a reprieve, and then she reels you back in with Jamie & Claire. Always Jamie & Claire. The secrets are forgivable, the passion is real, and the journey is unforgettable. 5 Stars! On to Drums Of Autumn! 0 of 0 people found the following review helpful. Pretty good summer reading By duimovochka As I progress through the series, I seem to like each following installment less than the one preceding it. I think that the first two books have told a complete story that didn't really need any further development. If it wasn't just simple curiosity on my part I should have stopped after the second or, at the most, this third book and call it quits. As the story progresses it becomes more forced and artificial. There is no significant development of the characters, they just serve as props in the recounting of the new unlikely but numerous adventures. However, the book is easy to read, narration is flowing easily, and the language is very fine and rich. There's also some quiet and understated humour that sparkles from time to time. So, enjoy while reading it and forget it as soon as you close the book. 0 of 0 people found the following review helpful. A Swashbuckling Romance Adventure Takes Us On An Emotional Rollercoaster By dancerone My favorite book so far. Lots of action/adventure, drama and romance which are the things I love in stories since I was a child (Ulysses, Jason and the Argonauts/The Golden Fleece etc...). Claire's return is priceless. The print store is everything you could expect and more. Diana puts us through an emotional rollercoaster throughout the book particularly with Lord John Grey along with Jamie's side of the story throughout his 20 years. From Claire's search for Jamie and the reunion to their adventures together, 'Voyager' keeps you engaged from beginning to end.. There are so many twists and turns to the story that will keep your stomach churning especially the cave scene and that British ship (when you read Voyager, you'll see what I mean). The romance is abundant. The famous "Turtle Soup" chapter is one of the most memorable Claire/Jamie encounters in the series. I could not stop laughing. Jamie's restraint during a conversation is laugh out loud funny and Claire's boldness being in ill-health is worth a re-read before you go on to the

next chapter. Although we all love Claire and Jamie, the character that stole the show in this book is Jamie's nephew wee Ian. Wee Ian is definitely Jamie Jr.. He is hilarious, stubborn and adventurous like his uncle. His encounters with women are just too funny. His interactions with his uncle and his Aunt Claire are just as sweet even when Jamie is angry at him. I cannot wait to read what he is up to in Drums of Autumn. You must read Outlander and Dragonfly in Amber to get to the best book in the series so far (the other two are really good as well). I'm sure the subsequent books are just as good or maybe even better. However, Voyager steps up the Claire/Jamie adventure ten fold which keeps you emotionally on the edge of your seat time and time again. Highly recommend it. See all 6818 customer reviews...
