

Read Marijuana Horticulture: The Indoor/Outdoor Medical Grower's Bible By Jorge Cervantes

GET ACCESS NOW

With 512 full color pages and 1120 full color photographs and illustrations, Marijuana Horticulture: The Indoor/Outdoor Medical Grower's Bible is the most complete cultivation book available. The Fifth Edition of the former Indoor Marijuana Horticulture: The Indoor Bible was originally published in 1983, when it immediately became a best seller. More than 500,000 copies of the Indoor Bible are in print in Dutch, English, French, German and Spanish. New greenhouse and outdoor growing chapters make this a book both indoor and outdoor growers will keep under thumb. The other 15 chapters (17 total) are all updated with the most current information, completely rewritten and significantly expanded. For example, Dr. John McPartland contributed an all new medical section - The books credits list more than 300 contributors and reads like a who's who in the world of cannabis cultivation.

Review If you want to grow weed, this is the only book you need! --David Bienenstock - Editor, High

Times Magazine, January 11, 2006 Fun, informative, illustrative, hands-on and authoritative. Whether for approved medical use patients or prohibition pragmatists. --Allen St. Pierre, Executive Director, NORML, Washington, DC, January 2006 The new Bible is without a doubt the best grow book on the market. --Phil Kilv, Editor in Chief, Weed World Magazine, January 2006 About the Author Cervantes is a world-renowned expert on indoor, outdoor, and greenhouse cannabis cultivation. He puts more than thirty years of expert cannabis growing knowledge and hands-on experience at your fingertips with his books, articles, photographs, and a new DVD. His expert advice has guided millions of growers worldwide to apply simple, effective horticultural techniques to high-yield closet, basement, backyard, and guerilla gardens. In his monthly question-and-answer column, "Jorge's Rx," the flagship of High Times magazine's cultivation section, Cervantes provides definitive solutions to growers' problems. He also pens a regular column in Soft Secrets magazine. High Times and Soft Secrets boast the highest circulation in North America and Europe. Cervantes still finds time to contribute feature cultivation articles to High Times, Burst High (Japanese), and a dozen European cannabis magazines. Multilingual Cervantes also speaks at eight international cannabis fairs in Europe every year. With five books in print and more than a half million books sold, you can find his works in Dutch, English, French, German, and Spanish. Soon books will be available in Italian, Japanese, and Russian.

By Ftrump Great book with a lot of easily digestible information with high quality pictures. It felt like all the info I have scoured the web for, but in one well organized place... without the misguided opinions of the less experienced. With that being said it has everything you need to know, especially from the perspective of someone knowing next to nothing, but at times it left me wanting more in depth info on certain subject. Its a great source of information and a good place to start if nothing else. 8 of 9 people found the following review helpful. Good, but not as complete or well put together as I would like. By Cirrocco This book has a lot of great information, but it is put together in a somewhat sloppy way. It doesn't really offer any step-by-step information, but if you're willing to dig through it all then you can get all the information you need. The chapter on lighting needs to be updated to account for LED lighting. So it's helpful, but be prepared to read all the way through before you start, and hope that you get an edition that isn't 10 years old, if such an edition exists. 3 of 3 people found the following review helpful. Excellent guide book! A must have for the serious homegrower. By D. A. Deardorff As a home grower in Colorado I already have good crops, but I bought this book to add to my library because of the technical details, tips and knowledge of the author. This is just one of many books on the subject by Jorge Cervantes. This book is filled with great pictures and descriptions of hundreds of exotic strains but also has tons of sage advice for the beginner and the experienced grower alike. Excellent book, written in a straight forward, anyone can understand language that is easy and interesting to read. Many pictures for those times when all you want to do is to look and dream.
